Business Aviation

Providenciales International Airport is expanding by way of a new hangar, storage facility and support apron managed by **Business Aviation**.

The soon to be constructed taxiway "I" **India** leading into the hangar and storage facility is scheduled to commence services in December 2016.

The facility will be used mainly to accommodate: Locally based private aircrafts with the option of accommodating privately owned small to medium size aircraft for storage and maintenance purposes.

For additional information, contact:

Mr. Crayton Higgs
