

When an Occurrence is not an Accident and the Investigator isn't you!

Mark Denney

Objective

1. Understanding intent of occurrence reporting in relation to ICAO
2. To clarify the distinction between occurrences and accidents

Instruments

- ICAO
 - Annex 13
 - Chapter 8

CHAPTER 8. ACCIDENT PREVENTION MEASURES

Note.— The objective of these specifications is to promote accident prevention by collection and analysis of safety data and by a prompt exchange of safety information, as part of the State safety programme.

Incident reporting systems

8.1 A State shall establish a mandatory incident reporting system to facilitate collection of information on actual or potential safety deficiencies.

8.2 A State shall establish a voluntary incident reporting system to facilitate collection of information on actual or potential safety deficiencies that may not be captured by the mandatory incident reporting system.

 - Preventative Action
 - Share

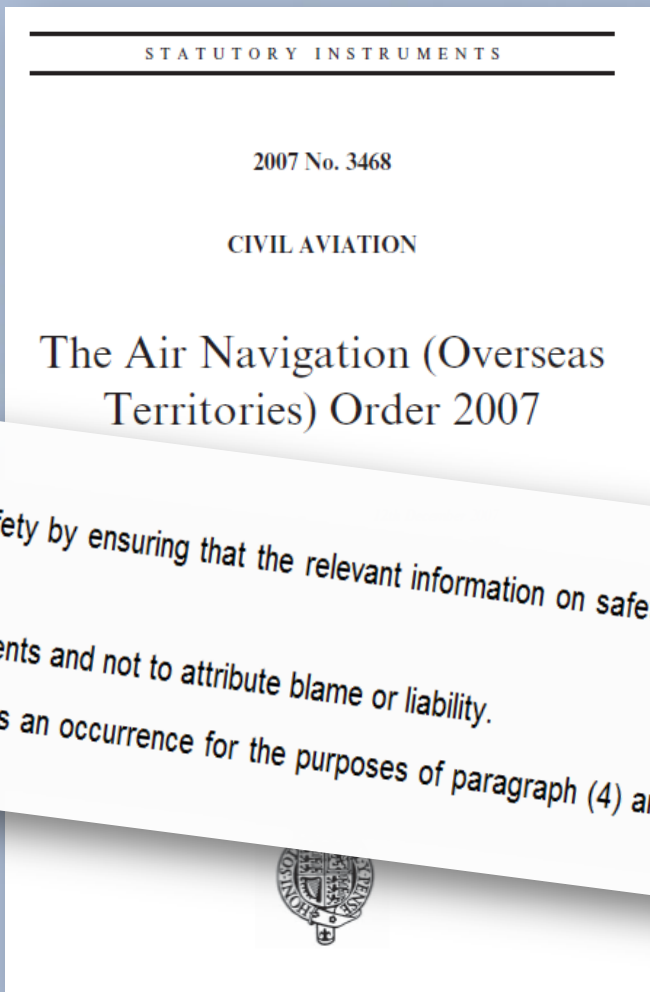

Database systems and analysis — Preventive actions

8.4 A State shall establish and maintain an accident and incident database to facilitate the effective analysis of information on actual or potential safety deficiencies obtained, including that from its incident reporting systems, and to determine any preventive actions required.

Instruments

- AN(OT)O
– Article 139 “MOR”

Mandatory reporting

- 139.—**(1) The objective of this article is to contribute to the improvement of air safety by ensuring that the relevant information on safety is reported, collected, stored, protected and disseminated.
- (2) The sole objective of occurrence reporting is the prevention of accidents and incidents and not to attribute blame or liability.
- (3) Every person listed below shall report to the Governor any event which constitutes an occurrence for the purposes of paragraph (4) and which comes to his attention in the exercise of his functions—

Occurrence Report Process
