Circulated and Submitted Electronically.

Dear TCI Based Contractors

Request for Proposal (RFP) for Structural Assessment of the Main Terminal and Combined Services Building – South Caicos [RFP NO: TCIAA 24/25_011]

The Turks and Caicos Islands Airports Authority (“TCIAA”) invites qualified structural engineering firms to submit proposals for a sound structural assessment of the recently constructed **Main Terminal and the Combined Services Building at Norman B. Saunders Sr. International Airport, South Caicos.**

Proposers must read the information contained in the Request for Proposals (“RFP”) to understand how to submit the proposal, what studies must be done before preparing a proposal, what documents must accompany the submission, and what legal obligations the Proposer is submitting to by providing a successful bid.

Any Proposer wishing to be considered for this work must submit the information requested in this RFP by the stated deadline and, if required, participate in an interview. Proposals must be received via email at bids_contracts@tciairports.tc on or before **4:00 pm Wednesday, 2 October 2024.**

Sincerely,

Ms. Janique Fritz

[RFP NO: TCIAA 24/25_011]

A. PURPOSE

The purpose of this assessment is to verify the buildings' compliance with design specifications, ensure the structural systems are functioning as intended, and identify any early signs of potential issues to preserve long-term structural integrity.

B. COMPANY BACKGROUND

The TCIAA is a statutory body established in 2006 following the split of the Civil Aviation Department into the Civil Aviation Authority and Airports Authority. TCIAA is mandated for the constructing, controlling, and managing of airports; providing and maintaining runways, taxiways, and terminals for the efficient operation of airports; providing facilities for Customs and Immigration Services, and Health and Security checks; and for incidental and associated purposes.

Norman B. Saunders Sr. International Airport is a key infrastructure serving South Caicos. The Main Terminal and Combined Services Building, recently constructed, are critical to supporting the airport's operations. While the buildings are new, the TCIAA is seeking a professional evaluation to ensure their current structural condition aligns with the design and regulatory standards, and to identify any potential vulnerabilities early on.

C. SCOPE OF SERVICES

The selected firm will be responsible for providing the following services:

1. Preventive Structural Assessment

• Review of Design Compliance

Evaluate the buildings' construction to ensure compliance with original design documents and engineering specifications, focusing on structural integrity.

• Inspection of Key Structural Elements

Perform a detailed inspection of key structural components, including:

- ✓ Foundations
- ✓ Columns
- ✓ Beams
- ✓ Load-bearing walls
- ✓ Floors and ceilings

- **Assessment of Load-Bearing Capacity**

Ensure that the load-bearing capacity of the buildings meets or exceeds design expectations, and is suitable for ongoing operational use.

- **Early Detection of Potential Issues**

Conduct an inspection for any early signs of cracking, settlement, subsidence, or other potential issues that could evolve over time, even though the buildings are recently constructed.

- **Environmental and Long-Term Stress Considerations**

Assess the buildings' structural systems in relation to environmental factors such as wind, seismic conditions, and potential saltwater corrosion, which are particularly relevant for structures in coastal environments like South Caicos.

2. **Reporting**

- a. Prepare a detailed structural assessment report, which should include:
 - i. Executive summary of findings.
 - ii. A review of design compliance and the actual condition of the structural systems.
 - iii. Identification of any early-stage structural issues or potential vulnerabilities.
 - iv. Recommendations for ongoing maintenance or corrective action, if needed, to ensure the buildings remain in optimal condition.
 - v. Timeline and prioritization for any suggested interventions, if necessary.
- b. Present the report to the TCIAA and be available for any follow-up discussions or clarification.

D. DELIVERABLES

1. Comprehensive structural assessment report including findings, recommendations, and photographic documentation.
2. A summary of design compliance and current structural condition.
3. Recommendations for any maintenance or early-stage repairs, if required.
4. Timelines for follow-up assessments or interventions.

E. PROPOSAL REQUIREMENTS

At a minimum, the Proposer shall include in its proposal the information outlined below to demonstrate their competence and qualifications for the satisfactory performance of the services specified in this RFP. This information should serve as a guide to showcase both the Proposer's and their company's capability to effectively fulfill the scope of services.

1. Statement of Qualifications:

- a. The Proposer shall provide a cover letter expressing interest in the project and providing a brief overview of their experience in developing projects of a similar size, scope, and complexity as required by this RFP.
- b. The Proposer must complete and submit either of the KNOW YOUR CUSTOMER ("KYC") FORM based on your classification as described in Appendix B, along with supporting documents.
- c. The Proposer must complete and signed the CERTIFICATE OF NON-COLLUSION. No proposal will be considered unless this is submitted.

2. Qualifications of Key Personnel

Resumes and qualifications of key personnel assigned to the project, with emphasis on their experience in structural engineering and building assessments.

3. Approach and Methodology

A detailed description of the proposed approach for conducting the preventive structural assessment, including any specific techniques, technologies, or equipment that will be utilized.

4. Work Plan and Schedule

Proposed work plan with key milestones and a timeline for completion of the assessment.

5. Cost Proposal and Payment Terms

The proposal should include a detailed breakdown of costs associated with the structural assessment, clearly outlining expenses for each phase of the project. Additionally, the proposed payment schedule should be aligned with key project milestones, ensuring transparency and clarity regarding invoicing and payment terms.

F. SELECTION PROCESS

All proposals will be reviewed and assessed based on, but not limited to service quality, experience, and pricing.

The TCIAA reserves the right to reject a non-responsive proposal that does not include the documents required to be submitted by this RFP.

The TCIAA reserves the right to request clarifications or additional information from any or all Proposers regarding their proposals.

The TCIAA also reserves the right to negotiate the agreement with the highest-ranked Proposer's terms and conditions, including the final price.

G. SUBMISSION REQUIREMENTS

Proposers shall submit copies of their proposal in a Portable Document File (PDF). **Submissions must be emailed to bids_contracts@tciairports.tc with the caption "STRUCTURAL ASSESSMENT OF THE MAIN TERMINAL AND COMBINED SERVICES BUILDING NORMAN B. SAUNDERS SR. INTERNATIONAL AIRPORT, SOUTH CAICOS [RFP NO: TCIAA 24/25_011]" to:**
